Center for Health Equity Research Rounds

Tuesday, February 11th, 12pm – 1pm
lunch provided
717 Delaware St. SE, Room 105

“Smoking Cessation in Low-Income Countries: Learning from a Trial in Pakistan”

Kamran Siddiqi, MBBS, PhD
Clinical Senior Lecturer in Epidemiology and Public Health
Department of Health Sciences, Hull York Medical School
University of York

Kamran Siddiqi, MBBS, PhD, is a clinician with specialist training in pulmonology and public health. He has worked as an academic and as a clinician in the UK, Latin America and South Asia. He has also worked at the National Institute of Health and Clinical Excellence as an education advisor. He focuses his research on developing and evaluating public health interventions to reduce tobacco-related harm in impoverished and marginalized communities. He serves on national public health guideline and research funding committees. He teaches epidemiology and public health and supervises research students in the topics of lung health, tobacco control and tuberculosis.

Funding provided in part by a grant from the National Institute on Minority Health and Health Disparities (1P60MD003422) to the University of Minnesota Center for Health Equity and by 1UL1RR033183 (PI Blazar) from the National Center for Research Resources to the University of Minnesota Clinical and Translational Science Institute (CTSI). The views expressed by speakers and moderators do not necessarily reflect the official policies of the Department of Health and Human Services.
