Present

Write Winning Grants

January 18, 2012 from 8:30AM - 5:00PM

We are pleased to announce the Grant Writers’ Seminars and Workshops LLC is coming back to the University of Minnesota. They will present a day-long seminar of their widely acclaimed Write Winning Grants seminar. This seminar comprehensively addresses practical and conceptual aspects important to the proposal-writing process geared towards NIH, but applicable to other national funding agencies. It is designed for faculty members, post-doctoral fellows, graduate students, and others who have had some exposure to writing grant applications, either through training / mentoring or personal experience. Emphasis is given to such things as idea development, identification of the most appropriate granting agency, how to write for reviewers, and tips and strategies that are of proven value in presenting an applicant’s case to reviewers. The version of the program that focuses on NIH emphasizes how to cope with the recent changes in how grant proposals to that agency are written and reviewed. Participants are taught strategies designed to merit a fundable priority score.

There is limited space available for this seminar and it is based on strict eligibility criteria. In order to be eligible, you must be CTSI KL2, BIRCWH K12, CHRCDA K12 Scholar, on the CTSI MAC, junior faculty doing "clinical and translational" research, eligible through the MC3 program, or a Center for Health Equity or a health disparities investigator. Priority will be given to junior faculty.

To apply for this seminar visit our website:  
http://www.med.umn.edu/che/

Funding for this program was made possible in part by 1P60MD003422 (PI Ahluwalia) from the National Institute on Minority Health and Health Disparities to the University of Minnesota Center for Health Equity; by U54CA153603 (PI Okuyemi) from the National Cancer Institute to the Minnesota Center for Cancer Collaborations (MC3); and by 1UL1RR033183 (PI Blazar) from the National Center for Research Resources to the University of Minnesota Clinical and Translational Science Institute (CTSI). The views expressed in written program materials or publications and by speakers and moderators do not necessarily reflect the official policies of the Department of Health and Human Services; nor does mention by trade names, commercial practices or organizations imply endorsement by the U.S. Government.
